

Paying with Plastiq

SPLATSIN is making it easier for you to pay.

What is Plastiq?

Plastiq is the all-in-one payment platform for business. We let you pay for virtually anything using ACH, debit or your current credit card—even where cards aren't accepted. We also help businesses, like the ones you buy from, more easily offer you the choice of how to pay.

How does it work?

You pay how you want. SPLATSIN gets paid how they want. It's that simple.

You'll receive a Plastiq payment link you can use to pay.
(See below for details.)

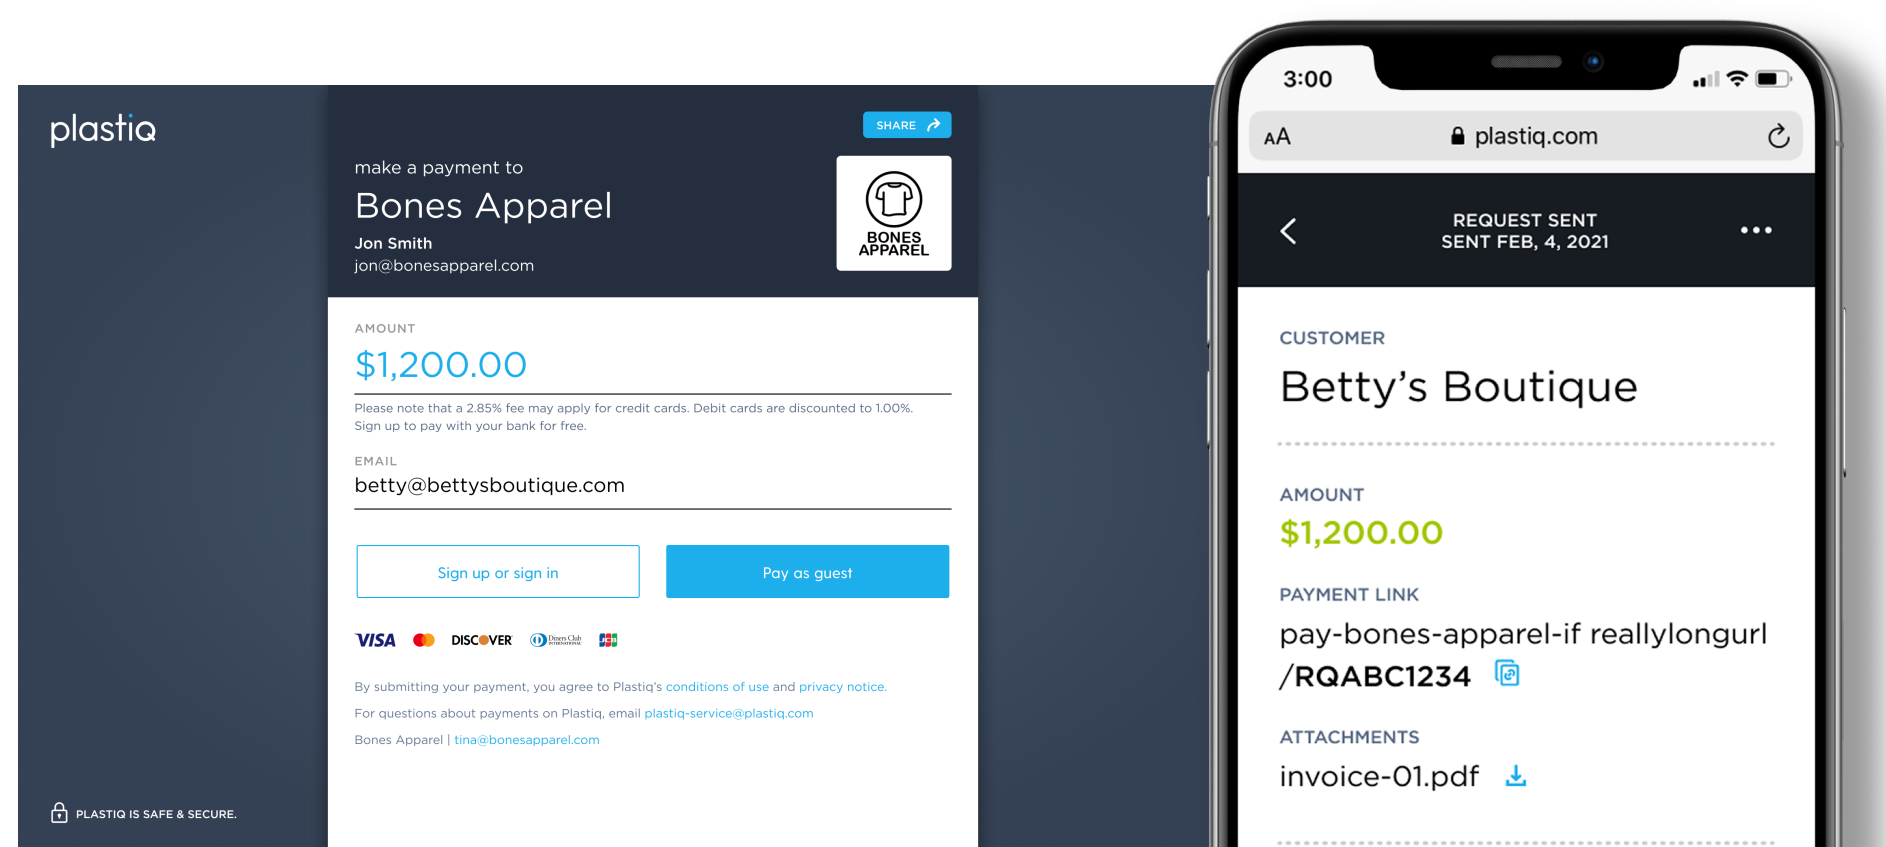

Plastiq charges your card or bank account quickly and securely—like they have for over a million others.

Then Plastiq pays in whichever way the business prefers: check, wire or ACH.

Complete your SPLATSIN payment:

Start by clicking here. <https://request.plastiq.com/pay-splatsin>

Enter your info, choose how to pay (credit, debit, or ACH) and complete the payment.

That's it. You'll receive a confirmation via email. If you create an account, all info will be saved for next time.

Fees and other important stuff.

PlastiQ charges a per-transaction fee based on how you choose to pay:

- Free for ACH payments
- Discounted to 1% for debit card payments
- 2.85% for credit card payments

PlastiQ gets payments where they need to be quick and easy:

- Your card or bank account gets charged upon payment.
- Payment is deposited to your vendor in 2-3 business days (expedited options available).
